2006 LA POUSSIE SANCERRE BLANC
SANCERRE

La Poussie, jewel of the Sancerre vineyards, is a voluptuous, aromatic wine. Of all the centuries-old growths which dominate the majestic river Loire, La Poussie is the one whose reputation remains unblemished. Its origins can be traced back to the Capetians, as witnessed by a document dating from around 1040. Nearer our time, Honoré de Balzac wrote the following about these Sancerre vineyards : □ the country possesses several growths of generous wines quite similar to the wines of Burgundy, which are rapidly consumed in the Parisian cafés. □ La Poussie produces a light, fruity, dry and vigorous Sauvignon Blanc, infused with the clay and limestone soil. The exceptional vineyard site with its natural amphitheater of an almost perfect semi-circle of 180° make it one of the most unique in the world.

Winemaking

VINIFICATION: Selective vinification after slow pressing, depending on the origin of the must. Thermo-regulated fermentation. Raised on fine lees and blended after eight to ten months in the vats.

Technical Information

Appellation:	Sancerre
Varietal(s):	100% Sauvignon Blanc
Soil Composition:	Steep hillsides of clay and limestone and gentle hills of heavy alluvium.
