Dominus Estate

## Othello

Napa Valley, California, United States

Vintage: 2021

JS	96	TWI	93
----	----	-----	----

### Overview

Produced from the historic Napanook vineyard in Yountville, California, Othello is a wine that expresses the singularity of its exceptional terroir and is accessible and enjoyable in its youth.

It was at the famed Napanook vineyard that Christian Moueix established Dominus Estate in 1983. An historical site, it was the source of fruit for some of the finest Napa Valley wines in the 1940's and 1950's. Notably, the vineyard's history can be traced back to Napa Valley's beginnings, when in 1838 George Yount, for whom the town of Yountville was named, first planted grapevines there.

Today, the vineyard produces three wines: Dominus, its flagship, Napanook, and Othello. A model for its sustainable farming practices, the Napanook vineyard has been hailed for its dry-farming, which shuns watering the vines, thus spurring them to draw deeply on the land's unique geology.

The resulting wines are an expression of this unique vineyard. In 2021, Dominus Estate received its CCOF (California Certified Organic Farmers) certification for organic farming practices.

### Winemaking

Meticulous viticultural and winemaking practices are undertaken with the objective of producing wines that are pure, balanced and complex. Minimal intervention and restraint throughout the process of grape berry selection, fermentation and aging preserve the character of the fruit. The resulting wines are an expression of this unique vineyard.

### Tasting Notes

A Bordeaux blend, the wine is forthcoming with lovely aromas of red fruit, round, silky tannins and an abounding brightness.

### Harvest Notes

The vintage was characterized by a dry winter and spring, with a total of 14" of rain (July 2020 to June 2021, historical average: 31"). 2021 was the second consecutive year of a drought that started in January 2020. Temperatures were constantly warm over the growing season, moderately higher than the historical average and remained consistent throughout the ripening period. The weather conditions in 2021 favored an early hydric constraint which promoted production of small berries with high levels of phenolic compounds and deeply intense aromas.

### TECHNICAL INFORMATION

Varietals: 85% Cabernet Sauvignon, 9% Cabernet Franc, 6% Petit Verdot
