

Querciabella

Querciabella

Camartina

Toscana IGT, Italy
Vintage: 2018

Overview

Founded in 1974, Querciabella enjoys the acclaim of the world's most discriminating critics and consumers for wines such as Camartina, Batàr, Palafreno and Querciabella Chianti Classico. In its uncompromising pursuit of quality, sustainability and authenticity, Querciabella has continually honed its approach to biodynamic viticulture for over a decade.

The vineyards where the grapes for Camartina are grown are all located in close proximity to the winery in Ruffoli, on the hillside of Greve in Chianti. They have been cultivated organically since 1988 and converted to a strict biodynamic standard in 2000. Camartina is made and released only if the vintage reaches a very high quality level.

Winemaking

The grapes are carefully selected in the vineyards and harvested by hand. The grapes are then destemmed, not crushed, and conveyed into temperature-controlled stainless steel vats or, just for the very best parcels, small temperature-controlled concrete vats. Here, alcoholic fermentation, maceration and malolactic fermentation take place. Macerations last about 12 days for the Sangiovese, and up to 20 days for the Cabernet Sauvignon.

The wine is then transferred to barriques. The different cépages undergo separate élevage for one year. At this stage, the best lots, selected through extensive tasting, are assembled into the final blend, and they undergo another year of élevage. 30% new French oak from Tronçais, Nevers and Allier. The wine is regularly racked and tasted during the whole barrel maturation. After bottling the wine rests for about six months before release. The wine is released no sooner than 30 months after harvest.

Harvest Notes

Already labelled by many as "classic", 2018 is for sure one of the most harmonious vintages of the last decade due to regular weather patterns and a prolonged ripening season that lasted well into perfect Autumn days. From the onset of budburst, the growth season proceeded smoothly until picking. The near-perfect conditions at harvest and our great timing and precision in picking brought to the cellar grapes of exceptional quality.

TECHNICAL INFORMATION

Varietals: 70% Cabernet Sauvignon, 30% Sangiovese
Wine Alcohol: 14%
Titratable Acidity: 5.47 g/L
pH: 3.49
New Oak: 30%
