### Overview

The Pio Cesare family's unique winemaking method stresses minimal intervention to produce wines of particularly supple flavor expression. A ceaseless devotion to the individuality of each of the region's wines informs Pio Cesare's choices in the cellar: shorter maceration, separate lot fermentation, judicious selection for barrel and large cask aging, and bottling schedules determined by the ideal structure of each wine. This allows Pio Cesare to craft wines of varying weight, ageability and drinkability as determined by the vineyard rather than market fashion.

This Barolo is produced using the classic "formula" of traditional Barolo families: a wine which embraces and combines each of the unique characteristics of the different terroirs of the appellation, sourcing grapes from the family's multiple vineyards in different communes.

# Winemaking

The grapes are sourced from family-owned vineyards in Serralunga d'Alba (Ornato, la Serra, la Briccolina, Lirano), Grinzane Cavour (Gustava, Garretti), La Morra (Roncaglie), Novello (Ravera), and Monforte d'Alba (Mosconi). Vinification takes place in stainless steel tanks, with skin contact for about 30 days. The wine is aged in mid-toasted French oak for three years: 70 percent in 20 to 50 hectoliter casks; 30 percent in barriques.

# Tasting Notes

A traditional vintage delivering fresh fruits and beautiful aromas, with great structure and complexity, intense color and a balanced acidity, already approachable with its gentle tannins—all the classic components of the great vintages of Barolo.

## Harvest Notes

2021 was a "later" harvest characterized by a long and cold winter, rich in abundant snow and rainfall which provided an excellent initial water supply to our soils, very precious to face the following months. The bud sprouting of Nebbiolo started towards the end of March, almost 15 days later than the previous year. Even though the delay characterized the entire season, until harvest time, the vegetative cycle of Nebbiolo was consistent and without any sudden excesses, thanks to the very constant temperatures. The vines could grow without any stress, reaching excellent quality and quantity levels.

The Nebbiolo harvest in the Barolo region began on October 11th with the Ornato vineyard in Serralunga d'Alba, usual for more traditional vintages. The harvest continued throughout the Barolo appellation, and was completed at the Mosconi vineyard, usually a much later-ripening exposure.

While revealing a terrific ageing potential, 2021 vintage enchants with a perfect balance between power and complexity, guaranteed by the family's unique terroirs especially in more traditional vintages, and elegance and finesse, the result of a stylistic refinement after many years of experience with the changing climate.

#### TECHNICAL INFORMATION

Varietals: 100% Nebbiolo Wine Alcohol: 14.5%
